Payment Integration

Summary

Full-stack developer with 2+ years of experience specializing in C#, .NET, and modern web technologies. Built scalable applications including game server infrastructure with C++/LUA/PHP and production-ready web platforms using React, Next.js, and ASP.NET. Passionate about clean architecture, performance optimization, and creating intuitive user experiences.

Experience

2025 - Present

Full-Stack Developer @ Vällingby Körakademin AB - [View Project](#)

- Leading development of a driving school platform with Next.js and .NET Core.
- Increased customer acquisition by 150% through improved digital presence.
- Building Stripe payment integration and student dashboard reducing admin work by 50% and implementing real-time notifications to improve student engagement.

2024 - Present

Full-Stack Developer @ Freelance

Tibia Private Server - [View Project](#)

- Maintaining custom Tibia server with 99.8% uptime serving 300+ registered players using C++/LUA/PHP
- Docker containerization with MySQL/MariaDB ensuring data security and reliability
- PHP admin website supporting 15+ active concurrent players in live production environment

GeekApp & SpelSida - [View Projects](#)

- Self-hosted databases used daily for content tracking, providing faster performance than external services
- Implemented secure REST APIs with bearer token authentication for data safety and customized functionality

E-Commerce Dashboard - [View Project](#)

- Complete dashboard reducing product management time by 60% and cutting initial startup setup by 2 weeks with reusable architecture
- Secure backend with bearer authentication and scalable database supporting unlimited products and future payment integration

2024 - 2025

Back-End Developer @ Carelyo Inc - [View Project](#)

- Processed 100+ monthly transactions with 99.9% uptime for eHealth platform, ensuring PCI compliance
- Optimized checkout process reducing payment failures by 45%, increasing transaction success rate to 98.5%

2023 - 2025

Security Guard @ Rapid Säkerhet AB

- Monitored 100+ client sites with 100% safety compliance and zero security breaches
- Implemented systematic patrol patterns reducing incident response time by 20% across managed properties

2022 - 2023

Delivery Driver @ PostNord AB

- Consistently achieved 95% on-time delivery rate for 150+ daily packages across Stockholm routes
- Optimized delivery routes saving 15 minutes per trip, increasing daily capacity by 20%

2017 - 2022

Video Coding Specialist @ Randstad AB

- Processed 500+ package images daily with 99.8% accuracy, maintaining regulatory compliance
- Reduced processing errors by 40% through systematic workflow improvements

Education

2023 - 2025 Stockholm, Sweden

Nackademin Yrkeshögskola

Web Developer .NET with CMS Specialization - [View Certification](#)

.NET development program focused on building web applications, e-commerce systems, and CMS platforms. Learned Microsoft .NET, RESTful APIs, responsive design, and modern web development. Completed hands-on internship in professional development environments.
